** Confidential **

Hi Peter-I have had three staff come to see me from Theatre re serious concerns over a surgeon from a clinical (they feel client care is being compromised) and a professional behavior perspective. They displayed different degrees of emotion, to the point of one stating the whole issue is keeping them from sleeping-I explained access to EAS.

I have requested they document urgently their concerns to me which I will forward on to you, and they have agreed to do so.

Thanks Linda
